Program KAUS 2006

We will meet at the Department of Mathematical Sciences at Chalmers University, Chalmers tvärgata 3, in room MV:L14 at 14:30, February 3rd. We will be at the department (office H5014) all day if you arrive earlier.

We will then try to follow the schedule below. The talks are supposed to be 30 minutes, so there will be plenty of time for questions and discussion. Note that the talks will be held in English, since we have a non-Swedish-speaking participant.
